

FUTURE ME

Life After High School

Oral Presentation Example

Joseline · English Teacher
Belén · Psychologist

Learn, Undertake, Persevere

Today's Presentation

Our project answers one big question:

Where do we see ourselves in 2036?

1. Who we are today

4. Life in 2036

2. Plans after high school

5. Goals and challenges

3. Career research

6. Advice and reflection

Who Are We Today?

Joseline

- 17 years old
- Interested in languages, music and education
- Responsible, patient and creative
- Favorite subject: English
- Enjoys helping classmates

Belén

- 18 years old
- Interested in psychology and emotions
- Calm, empathetic and organized
- Favorite subjects: Biology and Language
- Enjoys listening and giving advice

Our Plans After High School

After graduating, we want to study careers connected with helping people.

Joseline: English Teaching

- Study at university in Chile
- Improve English communication
- Create motivating classes
- Help students feel confident

Belén: Psychology

- Study Psychology at university
- Understand emotions and behavior
- Support teenagers and adults
- Help people solve problems

Common purpose: Education + emotional support can improve people's lives.

Career Research: English Teacher

What does an English teacher do?

- Teaches vocabulary, grammar and communication
- Plans lessons and classroom activities
- Evaluates progress
- Motivates students to use English

Skills needed

- Communication
- Patience
- Creativity
- Organization
- Responsibility

Why this career?

“I love English and I would like to help students feel confident when they speak.”

Career Research: Psychologist

What does a psychologist do?

- Listens to people
- Studies human behavior
- Gives emotional support
- Helps people solve personal problems

Skills needed

- Empathy
- Active listening
- Patience
- Emotional intelligence
- Problem solving

Why this career?

“I would like to help people understand their emotions and feel better.”

Our Lives in 2036

In 2036, we imagine ourselves working, learning and growing.

Joseline in 2036

- Works as a high school English teacher
- Travels to English-speaking countries
- Continues studying and improving
- Helps many students learn English

Belén in 2036

- Works as a psychologist
- Specializes in adolescent psychology
- Has a balanced and healthy life
- Supports people's emotional well-being

Three Important Goals

Our goals help us turn dreams into actions.

Joseline

1. Graduate as an English teacher
2. Travel to an English-speaking country
3. Become an excellent teacher

Belén

1. Graduate as a psychologist
2. Specialize in adolescent psychology
3. Have her own psychology office

Key language: My goal is to... / To achieve this goal, I will...

Challenges and Possible Solutions

Life after high school can be exciting, but also difficult.

Challenge 1

Academic difficulties

Organize time + ask for help

Challenge 2

Financial problems

Apply for scholarships + save money

Challenge 3

Stress

Rest, talk to someone + seek support

The most important strategy: do not face problems alone.

Advice to Future Senior Students

If we could give advice to younger students, we would say:

- Think carefully about your future.
- Do not choose a career only because others expect it.
- Organize your time and responsibilities.
- Ask for help when you feel confused.
- Enjoy your final year of high school.

Final Reflection

What did we learn?

- Choosing a career is about interests, abilities and values.
- Our careers are different, but both help people.
- The future can change, but goals give direction.
- Communication, patience and responsibility are essential.

Thank you for listening!
